CRITICIZE FACTORY, SCHOOL PARTY GROUPS

HITS PRIMARY PARTY ORGANIZATION IN RICE MILL -- Tirana, Zeri i Popullit, 29 Jan 52

Primary organization work in the Shkoder Rice Mill has not been going well for a long time. There have been abuses, state property has been damaged, and discipline has been broken. The primary organization has refused to accept criticism or to engage in self-criticism.

In a recent meeting a ridiculous agenda was presented containing complicated problems which the organization was not capable of solving. Thus, the time and efforts of the primary organization were wasted and nothing was achieved. Despite this, not a single member criticized those who were responsible for the agenda and lengthy speech making.

Fadil Hoxha, chief of the Industrial Section of the party committee, who was called in as an efficiency expert, might have remedied the situation by heeding a recent article in Zeri i Popullit criticizing the Rice Mill primary organization. It is now too late to improve matters by aiding the primary organization in its control function. Inspection visits are necessary.

CRITICIZE SECONDARY SCHOOL TEACHERS -- Tirana, Zeri i Popullit, 30 Jan 52

Certain Communists in responsible positions at the Qemal Stafa secondary school in Tirana are not fulfilling their obligations properly. Mihal Kuka, Xhoxhi Andoni, Ali Sula, and Ferit Kozel have lost the confidence of the majority of the students. The same is true of Andrea Caci, who is also secretary of the primary party organization at that institution.

STAT

Caci held this post because of his past record as a partisan and his volunteer work, after the liberation, in youth and school organizations. But he is now relying too much on his past record. He does not give weak students much help, but merely tells them to study more. He also refuses to accept the criticisms of his students or of other Communists.

These serious faults caused the school party organization, in a recent meeting, to pass a resolution of censure and to ask for his resignation.
